

The Klove radio station serves my community greatly. It has helped several families and children stay on the right track. It especially helps lead young adults into being productive additions to society. Of what I have heard of the LPFM stations, there is nothing I found that was encouraging or uplifting. I have relatives all over the country and we are all helped by the klove radio station. Displacing klove will only result in the further down spiral of the country, just look around.
